On June 8, 2010 Ameritube and Energy Steel entered into an exclusive agreement whereby Ameritube, a domestic manufacturer of copper alloy tubing, will exclusively distribute nuclear certified material through Energy Steel & Supply Co.

As a nuclear supplier with nearly 30 years of experience, Energy Steel will provide the Ameritube products and services to all NSSS, Utility, A&E, OEM and other distributors.

Together we will provide the perfectly integrated solutions required by the nuclear industry.
